PagSeguro Digital Ltd. ("PagSeguro Digital" or the "Company") is a holding company, subsidiary of Universo Online S.A. ("UOL"), referred to, together with its subsidiaries, as the "PagSeguro Group", was incorporated on July 19, 2017. 99.99% of the shares of PagSeguro Internet S.A. ("PagSeguro Brazil") were contributed to PagSeguro Digital on January 4, 2018 and PagSeguro Digital maintains control of PagSeguro Brazil.

PagSeguro Brazil is a privately held corporation established on January 20, 2006, headquartered in the city of São Paulo, Brazil, and engaged in providing financial technology solutions and services and corresponding related activities, focused principally on micro-merchants and small and medium-sized businesses ("SMEs").

On July 15, 2020 PagSeguro Group constituted a holding company incorporated under PagSeguro Digital called PagSeg Participações Ltda. ("PagSeg") and on October 22, 2020, PagSeguro Group constituted another holding company incorporated under PagSeg called PagBank Participações Ltda. ("PagBank").

On March 18, 2021, PagSeguro Group constituted a holding company incorporated under PagSeguro Digital called PagSeguro Holding Ltd ("PSHC"). Additionally, in third quarter of 2021, Pagseguro Group established three new subsidiaries under PSHC: Pagseguro Chile SPA ("Pagseguro Chile"), Pagseguro Colombia S.A.S ("Pagseguro Colombia") and PSGP México S.A de C.V. ("PSGP Mexico"), these companies do not yet operate in the period ended September 30, 2021.

In January 2021, PagSeguro Group submitted a request for Brazilian Central Bank approval of a corporate reorganization involving certain of its subsidiaries, this reorganization was approved by Brazilian Central Bank on August 16, 2021. The proposed PagSeguro Group reorganization is intended to improve administration of the corporate structure and to group the operating subsidiaries under appropriate holding companies based on the services provided by each one.

After this corporate reorganization, the group subsidiaries are as follows:

- PagSeguro Brazil subsidiaries are PagSeguro Biva Securitizadora de Créditos Financeiras S.A. ("Biva"). Fundo de Investimento em Direitos Creditórios
   PagSeguro ("FIDC"), RegistraSeguro S.A. ("RegistraSeguro"), Wirecard Brazil S.A ("MOIP"), NETPOS Serviços de Informática S.A. ("NETPOS") and
  Concil Inteligência em Negociação S.A ("Concil"). PagSeguro Brazil acquired 100.00% of the issued shares of Concil on August 12, 2021 as detailed in
  Note 10.
- PagSeg subsidiaries are Net+Phone Telecomunicações Ltda. ("Net+Phone"), Boa Compra Tecnologia Ltda. ("Boa Compra"), BCPS Online Services
  Lda. ("BCPS"), R2TECH Informática Ltda. ("R2TECH"), BIVACO Holdings Ltda. ("BIVACO"), CDS Serviços Financeiros LTDA. ("CDS") and PagBank.
- PagBank subsidiaries are Tilix Digital Ltda. ("TILIX"), YAMÍ Software & Inovação Ltda. ("YAMÍ"), BoletoFlex Tecnologia e Serviços S.A. ("BoletoFlex") and Zygo Serviços de Tecnologia S.A. ("ZYGO").
- PSHC subsidiaries are Pagseguro Chile, Pagseguro Colombia and PSGP México.
- BS Holding subsidiaries is BancoSeguro S.A. ("Bancoseguro").

These consolidated financial statements include Pagseguro Brazil, PagSeg, PSHC, BS Holding and corresponding subsidiaries.

#### 1. General information (continued)

#### 1.1 COVID-19

The Company have observed that the main impact of the COVID-19 pandemic in our total purchase volume (TPV) has occurred between March and June 2020. In the third and fourth quarter of 2020, most of the cities in Brazil started a reopening process, with a gradual recovery of important commercial activities such as shopping malls, general retail, restaurants, and bars, among other non-essential and in-store businesses.

During the nine-month period ended September 30, 2021, the Company observed that, in the first three months, there was an increase in the number of people infected by COVID-19 and consequently the return of partial shutdowns and social isolation in several cities and states of the country. In the second quarter of 2021, most of the cities in Brazil accelerated the vaccination of the population, and consequently, the Company saw a graduated reopening process, with extension of opening hours of commercial activities. In the third quarter of 2021, the Company observed the returning of social events with public. On September 30, 2021, 146 million inhabitants had received at least the first vaccine shot against COVID-19 in Brazil, equivalent to 68% of the Brazilian population and 90 million inhabitants received the second vaccine shot or vaccines with a unique shot, representing 42% of the Brazilian population.

The Company has a significant variable cost structure mainly related to TPV, such as processing, interchange, card scheme fees and chargebacks. Marketing and sales expenses are also variable and depends on our strategy to leverage new products and services such as PagBank. The Company is also still accompanying the evolution of the Brazilian economy and reassessing, when necessary, the provisions for loss allowance for expected credit losses.

The Company's employees are its number one priority and almost 100% of its workforce is still working from home. The Company has a solid position in terms of cash, liquidity and working capital levels and in the nine-month period ended September 30, 2021, the Company has not faced impairment of our assets due to COVID-19.

#### 1.2 Additional information

Wirecard Brazil S.A. ("MOIP") is a subsidiary that PagSeguro acquired in October 2020, and which represented less than 3% of our consolidated assets as of September 30, 2021 and less than 2% of our consolidated revenue and less than 1% of our consolidated net income for the nine months ended September 30, 2021. MOIP was involved in a cyberattack between September 25 and September 29, 2021 (the "Incident"). The hackers demanded that we make a specified payment to prevent the public disclosure or sale of the targeted hacked data that was compromised in the Incident, which included personal profile information of MOIP customers. At the time of the Incident, MOIP had a distinct and separate IT server and operating environment from the rest of PagSeguro's IT platform and systems, and therefore none of PagSeguro's databases, customer information or systems were subject to the Incident, or formed part of the compromised data, beyond those independently within the MOIP IT environment. PagSeguro promptly followed the requirements of applicable Brazilian law, including the filing of a formal report to the Brazilian National Authority for Data Protection (Autoridade Nacional de Proteção de Dados) and Brazilian Central Bank on October 1, 2021.

PagSeguro's technology security team continues to assess potential consequences of the Incident or public disclosure of the compromised data by the perpetrators. During our review of the Incident through November 11, 2021, PagSeguro has still not identified evidence of unauthorized access to sensitive information, such as passwords or credit card details. At this time, PagSeguro confirms that the Incident has not had a material adverse financial impact on the company or on its customers, and PagSeguro's IT systems (including MOIP's IT environment) are operating normally, with heightened security measures undertaken in response to the Incident. For more information about cybersecurity risks to PagSeguro, see our annual report on Form 20-F for the year ended December 31, 2020 available on the SEC website (<a href="www.sec.gov">www.sec.gov</a>), including in particular "Risk Factors - Our business is subject to cyberattacks and security and privacy breaches."

## 2. Presentation and preparation of the unaudited condensed consolidated interim financial statements and significant accounting policies

These unaudited condensed consolidated interim financial statements do not include all of the information required for a complete set of financial statements prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standard Board. However, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Company's financial position and performance since the last annual financial statements.

These unaudited condensed consolidated interim financial statements for three and nine-month periods ended September 30, 2021 were authorized for issuance by the PagSeguro Digital's Board of Directors on November 9, 2021.

#### 2.1. Basis of preparation of condensed consolidated interim financial information

These unaudited condensed consolidated interim financial statements for the three and nine-month periods ended September 30, 2021 have been prepared in accordance with International Accounting Standard 34, "Interim Financial Reporting" as issued by the International Accounting Standard Board and disclose all (and only) the applicable significant information related to the financial statements, which is consistent with the information utilized by management in the performance of its duties.

These unaudited condensed consolidated interim financial statements do not include all the notes of the type normally included in an annual consolidated financial statement. Accordingly, this report is to be read in conjunction with the annual consolidated financial statements for the year ended December 31, 2020 (the "Annual Financial Statements").

The accounting policies and critical accounting estimates and judgments adopted are consistent with those of the previous financial year and corresponding interim reporting period.

#### 2.2. New accounting pronouncements

#### IFRS 17 Insurance Contracts

In May 2017, the IASB issued IFRS 17 Insurance Contracts (IFRS 17), a comprehensive new accounting standard for insurance contracts covering recognition and measurement, presentation, and disclosure, which became effective on January 1, 2021. IFRS 17 replace IFRS 4 Insurance Contracts (IFRS 4) that was issued in 2005. IFRS 17 applies to all types of insurance contracts (i.e., life, non-life, direct insurance, and re-insurance), regardless of the type of entities that issue them, as well as to certain guarantees and financial instruments with discretionary participation features. The Group analyzed their contracts and concluded that is not exposed to insurance contracts.

#### 4. Segment reporting

Operating segments are determined based on the information reported and reviewed by the Board of Directors, which is responsible for allocating resources and assessing the performance of the business and to make PagSeguro Group's strategic decisions.

Considering that all decisions are based on consolidated reports, and that all decisions related to strategic and financial planning, purchases, investments, and the allocation of funds are made on a consolidated basis, the PagSeguro Group and its subsidiaries operate in a single segment, as financial service agents.

The PagSeguro Group is mostly domiciled in Brazil and has revenue arising from local customers and customers located abroad. The main revenue is related to sales from the domestic market. The international market represents 2.3% and 2.8% for the three and nine-month periods ended September 30, 2021 (3.5% and 2.7% for the three and nine-month periods ended September 30, 2020.

#### 5. Cash and cash equivalents

<sup>(</sup>i) Card issuers: receivables derived from transactions where PagSeguro Brazil acts as the financial intermediary in operations with the issuing banks, related to the intermediation agreements between PagSeguro Brazil and Visa, Mastercard, Hipercard, Amex or Elo. However, PagSeguro Brazil's contractual accounts receivable are with the financial institutions, which are the legal obligors on the accounts receivable payment. Additionally, amounts due within 27 days of the original transaction, including those that fall due with the first installment of installment receivables, are guaranteed by Visa, Mastercard, Hipercard, Amex or Elo, as applicable, if the legal obligors do not make the payment.

<sup>(</sup>ii) Acquirers: refers to card processing transactions to be received from the acquirers, which are a third parties acting as financial intermediaries between the issuing bank and PagSeguro Brazil.

<sup>(</sup>iii) Other accounts receivable are mainly related to loans and credit card receivables with our customers. This amount is presented net of the ECL ("expected credit losses"), which is measured according to the IFRS 9. The provision rates are based on the internal credit rating that considers external information and are based on days past due. Every report date, PagSeguro reassesses the premises to adjust the historical credit loss experience with prospective information.

<sup>(</sup>iv) Refers to other dispersed receivables from legal obligors.

<sup>(</sup>a) Shared services costs mainly related to payroll costs that are incurred by the parent company UOL and are charged to PagSeguro. Such costs are included in administrative expenses and the increase in three-month period relates mainly to higher payroll costs (profit sharing).

#### iii) Key management compensation

Key management compensation includes short and long-term benefits of PagSeguro Brazil's executive officers. The short and long-term compensation related to the executive officers for the three and nine-month periods ended September 30, 2021 amounted to R\$222 and R\$39,642 (R\$100,679 and R\$104,446 for the three and nine-month periods ended September 30, 2020).

<sup>(</sup>b) Sale of services expenses is related to advertising services and software licenses from UOL and revenue is related to intermediation fees.

<sup>(</sup>c) Expenses are related to UOL and Uol Edtech purchase of BancoSeguro's Certificate of Deposits (CD).

<sup>(</sup>d) Expenses related to colocation and cloud services. In 2020, these services were provided by UOL Diveo and in 2021 the same services are provided by the affiliated company Compasso. The increase in 2021 relates to higher volume of cloud services due to the increase in active merchants and PagBank users.

#### 17. Provision for contingencies

PagSeguro Group is party to labor and civil litigation in progress and are discussing such matters at the administrative and judicial levels, which in some cases the PagSeguro Group has made corresponding judicial deposits. The likelihood of a negative outcome is assessed periodically and adjusted by management, when appropriate. Such assessment includes the opinion of its external legal advisors.

<sup>(</sup>ii) In March 2021, there was a decision taken by Brazilian Supreme Court related to Value-added Tax on Sales and Services (ICNS), that beneficiated the Company. For this reason, the Company reversed the provision in the amount of R\$29,114. Consequently, as the Company does not have this amount recorded in liability to make the offset with judicial deposits, the deposit is now being presented in the non-current assets as Judicial Deposits, until the withdrawal of these amounts.

## 19. Equity (continued)

#### b) Capital reserve

The capital reserve can only be used to increase capital, offset losses, redeem, reimburse, or purchase shares or pay cumulative dividends on preferred shares. For the nine-month period ended September 30, 2021, the Company recognize LTIP capital movement by issuing new shares of R\$138,665 (R\$3,834 in the nine-month period ended September 30, 2020).

#### c) Share based long-term incentive plan (LTIP and LTIP goals)

Members of the Company's management participate in a Long-Term Incentive Plan, or LTIP, which was established by UOL for its group companies on July 29, 2015 and has been adopted by PagSeguro Digital. Beneficiaries under the LTIP are selected by UOL's LTIP Committee, which consists of the Chairman and two officers of UOL and are submitted to our Board of Directors for adoption. In this plan, employees (including senior executives) of the Group receive remuneration in the form of share-based payments, whereby employees render services as consideration for equity instruments (equity-settled transactions). The cost of equity-settled transactions is determined by the fair value at the date when the grant is made.

That cost is recognized in personnel expenses (Note 22), together with a corresponding increase in equity over the period in which the service is fulfilled (the vesting period). The cumulative expense recognized for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Group's best estimate of the number of equity instruments that will ultimately vest. The expense in the statement of profit or loss represents the movement in cumulative expense recognized as at the beginning and end of the year. No expense is recognized for awards that do not ultimately vest because service conditions have not been met.

Under the terms of the LTIP, upon completion of the IPO, the vested portion of each beneficiary's LTIP rights was converted into Class A common shares of PagSeguro Digital at the IPO price (US\$21.50) which is the assessed fair value at the grant date. As a result, the beneficiaries of the LTIP received a total of 1,823,727 new Class A common shares upon completion of the IPO. The unvested portions of each beneficiary's LTIP rights will be settled on each future annual vesting date in shares.

The LTIP-Goals plan was established at PagSeguro Brazil on December 18, 2018, as approved by the Company's board of directors, and last amended by the Company's board of directors on January 19, 2021. Beneficiaries under the LTIP-Goals plan are granted awards, which may be payable in cash, Class A common shares or a combination of the two, at the discretion of the LTIP-Goals Committee based on the goals established in the Company's corporate results-sharing plan for any given year. If any portion of an award is payable in cash, the relevant amount in Brazilian Reais was determined on the last business day of January for awards related to 2020. For awards related to 2021 and beyond, the LTIP-Goals Committee will set a determination date that falls no later than on the last business day of March following the year for which such amount was awarded. Under the LTIP-Goals plan, the relevant payment shall be made in cash and/or Class A common shares delivered within 10 business days of that determination date.

This arrangement is classified as equity settled. For the nine-month period ended September 30, 2021, the Company recognized in equity, costs related to the LTIP and LTIP Goals in the total amount of R\$264,232 (R\$62,140 in the nine-month period ended September 30, 2020). As of September 30, 2021, the amount of R\$57,791 was accounted for LTIP and LTIP Goals social charges, including withholding income tax (Note 15) and the expected amount of cash disbursement with withholding income tax for LTIP in 2021 is R\$45,388.

The maximum number of common shares that can be delivered to beneficiaries under the LTIP may not exceed 3% of our issued share capital at any time, On September 30, 2021 total shares granted were 7,780,913, and the total shares issued were 5,892,145.

## 19. Equity (continued)

#### d) OCI, equity valuation adjustments and non-controlling

The Company recognizes in this account the accumulated effect of the foreign exchange variation resulting from the conversion of the financial statements of the foreign subsidiary BCPS, which amounted to R\$(284) in the nine-months ended on September 30, 2021 (positive value in R\$959 as of December 31, 2020). This accumulated effect will be reverted to the result of the year as gain or loss only in case of disposal or write-off of the investment.

The Financial investments mentioned in Note 6 were classified at fair value through other comprehensive income. Unrealized gain on LFTs in the nine-month period ended September 30, 2021 totaled R\$370 (R\$306 accumulated loss in December 31, 2020).

The Company also recognized in this account the difference between the book value and the amounts paid in the acquisitions of additional interests from the non-controlling shareholders of the subsidiary represented by the accumulated amount of R\$22,372 as of September 30, 2021 related to R2TECH, in the amount of R\$11,663 (R\$11,663 as of December 31, 2020) and BIVA, in the amount of 10,709 (R\$10,709 as of December 31, 2020).

## 20. Earnings per share

#### a) Basic

Basic earnings per share is calculated by dividing the profit attributable to equity holders of PagSeguro Digital by the weighted average number of common shares issued and outstanding during the three and nine-month periods ended September 30, 2021 and 2020:

|  | Three-month period |                    | Nine-month period  |                    |

#### 20. Earnings per share (continued)

#### b) Diluted

Diluted earnings per share is calculated by dividing the profit attributable to equity holders of PagSeguro Digital by the weighted average number of common shares outstanding during the period plus the weighted average number of common shares that would be issued on conversion of all dilutive potential common shares into common shares. The shares in the LTIP are the only shares with potential dilutive effect. In this case, a calculation is done to determine the number of shares that could have been acquired at fair value.

The increase is mainly represented by: costs related to freight, maintenance of POS and storage costs in the amount of R\$65,983 and R\$189,564 for the three and nine-month periods ended September 30, 2020, Additionally, costs related to interchange fees of card issuers were the amount of R\$820,272 and R\$2,063,516 for the three and nine-month periods ended September 30, 2021, (R\$473,144,801 in three and nine-month periods ended September 30, 2021), Additionally, costs related to interchange fees of card issuers were the amount of R\$820,272 and R\$2,063,516 for the three and nine-month periods ended September 30, 2020), and card scheme fees in the amount of R\$164,722 and R\$455,353 for the three and nine-month periods ended September 30, 2021), and card scheme fees in the amount of R\$164,722 and R\$455,353 for the three and nine-month periods ended September 30, 2020). (i)

Includes R\$140,743 and R\$326,282 of compensation expenses related to the LTIP goals for the three and nine-month periods ended September 30, 2021 (R\$101,381 and R\$132,792 for the three and nine-month periods ended September 30, 2020). The increase in personnel expenses is mainly related to the LTIP and LTIP goals expenses and Hubs' workforce expansion. (ii)

Relates mainly to the early collection of receivables, which amounted to R\$115,535 and R\$198,525 in the three and nine-month periods ended September 30, 2021 (R\$4,572 and R\$37,394 in the three and nine-month periods ended September 30, 2020). Additionally, R\$18,688 and R\$64,073 are related to expenses with exchange rate in foreign currency in the three and nine-month periods ended September 30, 2020). (iii)

Chargebacks refer to losses recognized during the period related to card processing operations (acquiring and issuing), losses on digital accounts and provision for delinquency rate of credit portfolio, as detailed in Note 24. In the first quarter of 2021, the increase in the amount of R\$73,356 is represented by inappropriate use of a system functionality implemented in the past, allowing unappropriated transactions by digital accounts customers and unexpected chargebacks on digital account losses for specific group of customers with higher credit risk for a new product. For all these facts, the corresponding root cause was identified and appropriately addressed by Pagseguro management, and there were no losses from these matters in second and third quarters of 2021.

In the nine-month period ended September 30, 2021, includes R\$29,114 related to the reversal in the tax payable as detailed in Note 16. In the nine-month period ended September 30, 2020, includes R\$84,294 related to the reversal of taxation of PIS/COFINS on financial income. (iv)

<sup>(</sup>v)

<sup>(</sup>vi) Depreciation and amortization amounts incurred in the period are segregated between costs and expenses as presented below.

#### 23. Financial instruments by category

The PagSeguro Group estimates the fair value of its financial instruments using available market information and appropriate valuation methodologies for each situation.

The interpretation of market data, as regards the choice of methodologies, requires considerable judgment and the establishment of estimates to reach an amount considered appropriate for each situation. Therefore, the estimates presented may not necessarily indicate the amounts that could be obtained in the current market. The use of different hypotheses to calculate market value or fair value may have a material impact on the amounts obtained. The assets and liabilities presented in this Note were selected based on their relevance. The PagSeguro Group believes that the financial instruments recognized in these consolidated financial statements at their carrying amount are substantially similar to their fair value. However, since they do not have an active market (except for the LFT included in financial investments, which is actively traded in the market), variations could occur in the event the PagSeguro Group were to decide to settle or realize them in advance.

<sup>(</sup>ii) PagSeguro Brazil has a tax benefit on PIS and COFINS that allows it to reduce the depreciation and amortization expenses when incurred. This tax benefit is recognized directly as a reduction of depreciation and amortization expense.

#### 24. Financial risk management

The PagSeguro Group's activities expose it to a variety of financial risks: market risk, fraud risk (chargebacks), credit risk and liquidity risk. The PagSeguro Group's overall risk management program focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the PagSeguro Group's financial performance.

#### Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. In the Group, market risk comprises interest rate risk and foreign currency risk and other price risk, such as equity price risk.

#### Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group's exposure to the risk of changes in market interest rates arises primarily from financial investments and deposits, both subject to variable interest rates, principally the CDI rate.

As of September 30, 2021 and for the three and nine-month periods ended September 30, 2021 and 2020
(All amounts in thousands of reais unless otherwise stated)

#### 24. Financial risk management (continued)

The Group conducted a sensitivity analysis of the interest rate risks to which the financial instruments are exposed as of September 30, 2021. For this analysis, the Group adopted as a probable scenario for the future interest rates of 8.60% for the CDI (increase of 40%). As a result, financial income (with respect to financial investments) and financial expense (with respect to certificate of deposit and corporate securities) would be impacted as follows:

| Transaction               | Interest rate risk | Book Value | Scenario with maintaining of CDI (6.15%) | Probable scenario with increase of 40% (to 8.6%) |
|---------------------------|--------------------|------------|--|--|
| Cash and cash equivalents | 100% of CDI        | 1,122,388  | 69,027                                   | 96,525   |
| Financial investments     | 100% of CDI        | 1,000,877  | 61,554                                   | 86,075   |
| Certificate of Deposit    | 169% of CDI        | 2,157,342  | (224,223)                                | (313,548)  |
| Interbank deposits        | 115% of CDI        | 300,163    | (31,197)                                 | (43,626)   |
| Corporate securities      | 155% of CDI        | 212,640    | (20,270)                                 | (28,345)   |
| Bank accounts             | 57% of CDI         | 3,810,758  | (133,586)                                | (186,803)  |
| Total                     |                    |            | (278,695)                                | (389,722)  |

#### Foreign exchange risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Group's exposure to the risk when future commercial transactions or recognized assets or liabilities are denominated in a currency that is not the entity's functional currency. Our risk is mainly related to Boa Compra and BCPS that have revenues in other currencies and cash and cash equivalents maintained in other countries. PagSeguro Group is not materially exposed to foreign exchange risk.

#### Equity price risk

The Group's non-listed equity investments are susceptible to market price risk arising from uncertainties about future values of the investment. As of September 30, 2021, and December 31, 2020, the exposure to equity price from such investments was not material.

#### Fraud risk (chargeback)

The PagSeguro Group's sales transactions are susceptible to potentially fraudulent or improper sales and it uses the following two processes to control the fraud risk:

- (i) The first process consists of monitoring, on a real time basis, the transactions carried out with credit and debit cards and payment slips, through an anti-fraud system. This process approves or rejects suspicious transactions at the time of the authorization, based on statistical models that are revised on a periodic basis.
- (ii) The second process detects chargebacks and disputes not identified by the first process. This is a supplemental process and increases the PagSeguro Group's ability to avoid new frauds. PagSeguro's expenses with chargeback, which was impacted by specific events in the nine-month period ended September 30, 2021, are disclosed in Note 22.

#### Credit risk

Credit risk is the risk that a counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Group is exposed to credit risk from its operating activities (primarily accounts receivable) and from its financing activities, including deposits with banks and financial institutions, and other financial instruments such as loans and credit card receivables with our customers.

Credit risk is managed on a group basis and for its accounts receivable is limited to the possibility of default by: (a) the card issuers, which have the obligation of transferring to the credit and debit card labels the fees charged for the transactions carried out by their card holders, (b) the acquirers, which are used by the PagSeguro Group to approve transactions with the issuers and (c) analyses for our customers background to provide access to credit portfolio.

(All amounts in thousands of reais unless otherwise stated)

#### 24. Financial risk management (continued)

In order to mitigate this risk, PagSeguro Brazil has established a Credit and Liquidity Risk Committee, whose responsibility is to assess the level of risk of each of the card issuers served by PagSeguro Group, classifying them into three groups:

- (i) Card issuers with a low level of risk, with credit ratings assigned by FITCH, S&P and Moody's, which do not require additional monitoring.
- (ii) Card issuers with a medium level of risk, which are also monitored in accordance with the financial metrics and ratios; and
- (iii) Card issuers with a high level of risk, which are assessed by the committee at monthly meetings.

PagSeguro has a rating process for loans and credit, based on statistical application models (in the early stages of customer relationships) and behavior scoring (used for customers who already have a relationship history). A process for designing, calibrating, and implementing policies and guidelines for granting credit and calibrating collection rules.

A process for monitoring the portfolio's risk profile, with a prospective view, which generates early warning feedbacks to the credit granting policies and risk classification models in a timely manner.

#### Liquidity risk

The PagSeguro Group manages liquidity risk by maintaining reserves, bank and credit lines for the obtaining borrowings, when deemed appropriate. The PagSeguro Group continuously monitors actual and projected cash flows and matches the maturity profile of its financial assets and liabilities in order to ensure that the PagSeguro Group has enough funds to comply with its obligations to third parties and meet its operational needs.

The PagSeguro Group invests surplus cash in interest bearings financial investments, choosing instruments with appropriate maturity or enough liquidity to provide adequate margin as determined by the forecasts. On September 30, 2021, PagSeguro Group held cash and cash equivalents of R\$1,122,388 (R\$1,640,065 on December 31, 2020).

The table below shows the PagSeguro Group's non-derivative financial liabilities divided into the relevant maturity group based on the remaining period from the balance sheet date and the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows.

#### 25. Capital management

The PagSeguro Group monitors capital based on the gearing ratio which corresponds to net debt divided by total capital. Net debt is calculated as total borrowings (including current and non-current borrowings as shown in the consolidated balance sheet) less cash and cash equivalents. Total capital is calculated as equity as shown in the consolidated balance sheet plus net debt.

The PagSeguro Group had no loans outstanding as of September 30, 2021 or as of and December 31, 2020. Therefore, no gearing ratio is presented.

#### 26. Non-cash Transactions

#### 27. Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability (exit price) in the principal or most advantageous market for the asset or liability, in an orderly transaction between market participants at the measurement date. A three-level hierarchy is used to measure fair value, as shown below:

- · Level 1 Quoted prices (unadjusted) in active markets for identical assets and liabilities.
- Level 2 Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices).
- · Level 3 Inputs for the assets and liabilities that are not based on observable market data (that is, unobservable inputs).

The PagSeguro Group believes that the financial instruments recognized in these consolidated financial statements at their carrying amount are substantially similar to their fair value. For the financial assets that is basically due to the nature of the receivables that are due from top tier financial institutions subject to low credit risk and are mostly receivable in a short-term period and are measured based on the consideration that the Group expects to receive as part of the transaction processing services.

Financial assets also include the financial investments represented by government bonds with quoted prices in an active market and recognized in the balance sheet based on its fair value.

Financial liabilities are mostly represented by deposits and short-term payables to merchants which are paid in accordance with the contract set out with the merchant and other short-term payables to service providers in the normal course of business and, as such, also approximate from their fair values. There were no transfers between Levels 1, 2 and 3 during the nine-month period ended September 30, 2021.
